DECORATING GUIDELINES FOR HOMECOMING

- 1. Our ceiling tiles are easily scratched. Please do not hang or adhere anything from the ceiling in the hallways. You can “lower” the ceiling by hanging decorations from the lockers or the brick above the lockers.**
- 2. To keep our school looking nice, use painters tape only on lockers, windows, walls, etc. Avoid double stick tape and gummy adhesives.**
- 3. For safety purposes, please leave entry way doors clear by not covering with paper. Window markers are allowed on windows and glass doors.**
- 4. Please decorate with signs, streamers, banners, etc. Confetti, Christmas lights, decorator lights, balloons and glitter are to be avoided completely due to the danger of broken glass and tedious clean up.**

Homecoming Week is a time to celebrate and build school spirit. In our experience, hall decorations can become overly distracting as the week progresses. We have observed that students get upset when balloons get popped and lights get broken, which then gets students angry at each other and defeats the purpose of the week.

Your assistance in helping us achieve the balance between a productive educational week and a uniting of the school community is greatly appreciated!
