

You were assigned to bring in a photograph that is important and meaningful to you. Please make sure that this is a photograph that personally belongs to you (not an image off the internet). Please look at this photograph and answer these questions:

What does this photo represent, and why is it meaningful to you?

Was the process of selecting a meaningful photograph easy or difficult for you? Explain Why.

What emotions do you experience when you look at this photo?

Now get up and look around the room at the photos other students brought in

Are you surprised by any of your peers' meaningful pictures? Why or Why Not?

What new understanding, if any, about things that are meaningful to you, did this activity help you find?
